Large Capacity Open Fryers

OFG 341 1-well gas
OFG 342 2-well gas

OFG 342 2-well large capacity gas open fryer with Computron™ 8000 control

Henny Penny open fryers offer high-volume frying with programmable operation, oil management functions and fast, easy filtration.

The 340 series large capacity open fryers offer maximum frying surface area within an economical footprint. A larger, shallower fry vat produces more consistent frying results with items that float when cooking.

Henny Penny gas open fryers combine reliability and efficient heating to recover temperature very quickly. Fast recovery translates into higher throughput, lower energy costs and longer frying oil life.

Henny Penny open fryers have a built-in filtration system that filters and returns hot frying oil in minutes. No separate pumps and pans, no handling hot oil. Frequent filtering

extends frying oil life, improves product quality and reduces oil costs.

The Computron™ 8000 control features automatic, programmable operation, as well as energy-saving, filtration and cook management functions.

The Computron™ 1000 control offers programmability in a simple, easy to use digital control panel with LED display.

Standard Features

- Heavy-duty stainless steel vats with 7-year warranty
- Larger, shallow vat offers large surface area that promotes more even cooking
- Specially designed “beach” accommodates oil displacement when lowering basket
- High-efficiency burners with solid state ignition
- High reliability heat-exchange design for energy efficiency and fast recovery
- Cold zone below burners helps extend oil life
- High-limit temperature protection
- Built-in filtration with over-the-top oil return to flush remnants
- Easy basket set and release
- Stainless steel construction for easy-cleaning and long life
- 4 heavy-duty casters, 2 locking

- Computron™ 8000 control (additional charge)
 - 12 programmable cook cycles
 - Melt mode
 - Idle mode
 - Clean-out mode
 - Water detection alert
 - Load compensation
 - Proportional control
 - Optional filter prompt and customizable filter tracking
 - 16-character digital display with multiple language settings
- Computron™ 1000 control
 - Programmable
 - LED Time/Temp display
 - Simple UP/DOWN arrows

Accessories shipped with unit

- Fry baskets—please select one
 - 1 full basket per well
 - 2 half baskets per well
- 1 basket support for each vat
- Lift tool for basket support
- Max filter screen and filter envelope

Options available separately

- 3 third-size baskets per well
- Direct Connect shortening disposal
- Fryer Shortening Shuttle®
- Filter rinse hose

Bidding Specifications

Provide Henny Penny model OFG 341 or 342 large capacity gas open fryer, 90 lb or 43 L oil capacity per vat, with built-in filtration system.

Unit shall incorporate:

- Computron™ 1000 simple digital control OR Computron™ 8000 control system (additional charge) with programmable or manual operation, LED digital display, idle and melt modes, load compensation, filtration tracking and 7-day history
- Fry vats of heavy duty stainless steel with 7-year warranty
- Shallow vat design with larger surface area and beach to compensate for load displacement
- 4 heavy-duty casters, 2 locking

Continuing product improvement may subject specifications to change without notice.
